WWEMA Emergency Order 2020-1 COVID-19

The West Warwick Emergency Management Agency has identified this facility as housing members of a vulnerable population. As such, under the Declaration of Emergency signed by the Town Manager, and the powers conferred to the Emergency Management Agency Director, I institute the following guidelines for this facility.

Access to this facility is limited to only essential care giving persons:

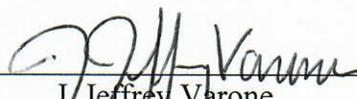

- Professional caregivers providing care to residents, or;
- Family members taking care of loved ones.

Additionally, the following guidelines must be adhered to:

- There will be no gathering of residents;
- All residents will maintain a social distance of 6-feet from one another. This is especially important near the entrance;
- All deliveries will be conducted expediently;
- All essential utility work shall be conducted expediently.

All persons entering the building will take into consideration that this is a facility with vulnerable residents and take all precautions necessary. These precautions include, but are not limited to, hand washing or sanitizing; coughing or sneezing into a handkerchief, tissue or elbow; and maintaining a 6-foot distance from others.

Residents should be aware that failure to comply with this Emergency Order is a violation of law and may be cause for your housing organization to rescind your tenant agreement. This order is put in place to keep all residents safe.

J. Jeffrey Varone
Director West Warwick EMA
