Thank you!

The Team of Pawlowski Associates, Landscape Architects & Planners, with Siegmund & Associates, Consulting Engineers, thank the West Warwick River Walk Committee for the opportunity to present our ideas for the West Warwick River Walk and our Vision for the future of West Warwick.

We are very enthusiastic about these proposals and present them for what we hope will be your favorable consideration. Our Team looks forward to working with you and the Town of West Warwick in translating them from Vision to reality.

In anticipation of that assignment, we are pleased to advise you that we will also be joined by John Baymiller, Architect and Urban Designer, whose creative and fine hand is responsible for the beautiful renderings presented herein that illustrate this Vision so well.
